02 / COMPANY INTRODUCTION

Built on experience. Driven by commitment.

Established in 2014, M.H General Contracting has developed a diverse construction portfolio across Abu Dhabi and Al Ain. From schools and commercial destinations to industrial facilities, residential buildings and private villas, our experience reflects the breadth of our execution capabilities.

Experienced project leadership is supported by 10+ engineers, 15+ foremen and a workforce of 160 construction workers. We bring these resources together through practical planning, technical follow-up and consistent site supervision.

Our strength lies in turning approved project requirements into organised site action. We coordinate people, materials and work sequences while maintaining clear communication with owners, consultants and the municipality, with attention to workmanship, safety and progress.

OUR COMMITMENT

To build lasting client confidence through capable teams, disciplined execution and dependable project coordination.

03 / WHAT WE BUILD

Experience across building sectors.

EDUCATION

Schools & learning facilities

School buildings, circulation areas and internal finishes, coordinated around the requirements of educational environments.

COMMERCIAL

Retail & commercial properties

Retail destinations, commercial frontages and investment properties, bringing building works and external areas together.

RESIDENTIAL

Villas & residential developments

Private homes, investment villas, apartment buildings and residential compounds with different architectural and operational needs.

INDUSTRIAL

Warehouses & supporting facilities

Industrial building requirements, including warehouses, workshops, offices, service yards and supporting electrical facilities.

04 / COMPANY STRUCTURE

Construction strength. Specialist integration.

M.H General Contracting leads the largest projects. Its construction branch and sister villa contractor are supported by one specialist electrical company serving all three.

PRINCIPAL COMPANY / MAJOR PROJECTS

M.H General Contracting

Schools, commercial developments, residential buildings, industrial facilities and villas.

M.H Global

CONSTRUCTION BRANCH

A branch of M.H General Contracting delivering smaller construction projects and villas, with dedicated coordination of its assigned sites.

Al Kawn Al Amer

SISTER COMPANY / VILLA CONSTRUCTION

A villa construction company focused on residential building works, finishing activities and practical site execution.

SHARED ELECTRICAL SUPPORT FOR ALL THREE CONSTRUCTION COMPANIES

Wahat Al Wathba

The specialist electrical company responsible for electrical installation and associated building electrical works across M.H General Contracting, M.H Global and Al Kawn Al Amer.

05 / OUR PEOPLE

Accountability at every level.

Project and area leadership report directly to the General Manager, with responsibility for their assigned sites and geographic areas.

GENERAL MANAGER

Eng. Mohamed

23 YEARS OF EXPERIENCE

COMPANY-WIDE

Leads company operations, resource planning and client relationships, overseeing project delivery across Abu Dhabi and Al Ain.

PROJECTS MANAGER

Eng. Mohamed Magde

13 YEARS OF EXPERIENCE

AL AIN

Leads assigned Al Ain projects, overseeing resource allocation, construction programmes and technical follow-up across a larger portfolio of sites.

PROJECTS MANAGER

Eng. Slama Ahmed

11 YEARS OF EXPERIENCE

ABU DHABI

Leads Abu Dhabi projects, overseeing site delivery, workmanship, programme follow-up and communication with the owner and consultant.

AREA MANAGER

Eng. Mostafa Ashraf

7 YEARS OF EXPERIENCE

AL AIN

Manages daily operations across assigned Al Ain sites, aligning site teams, work priorities and progress with approved project requirements.

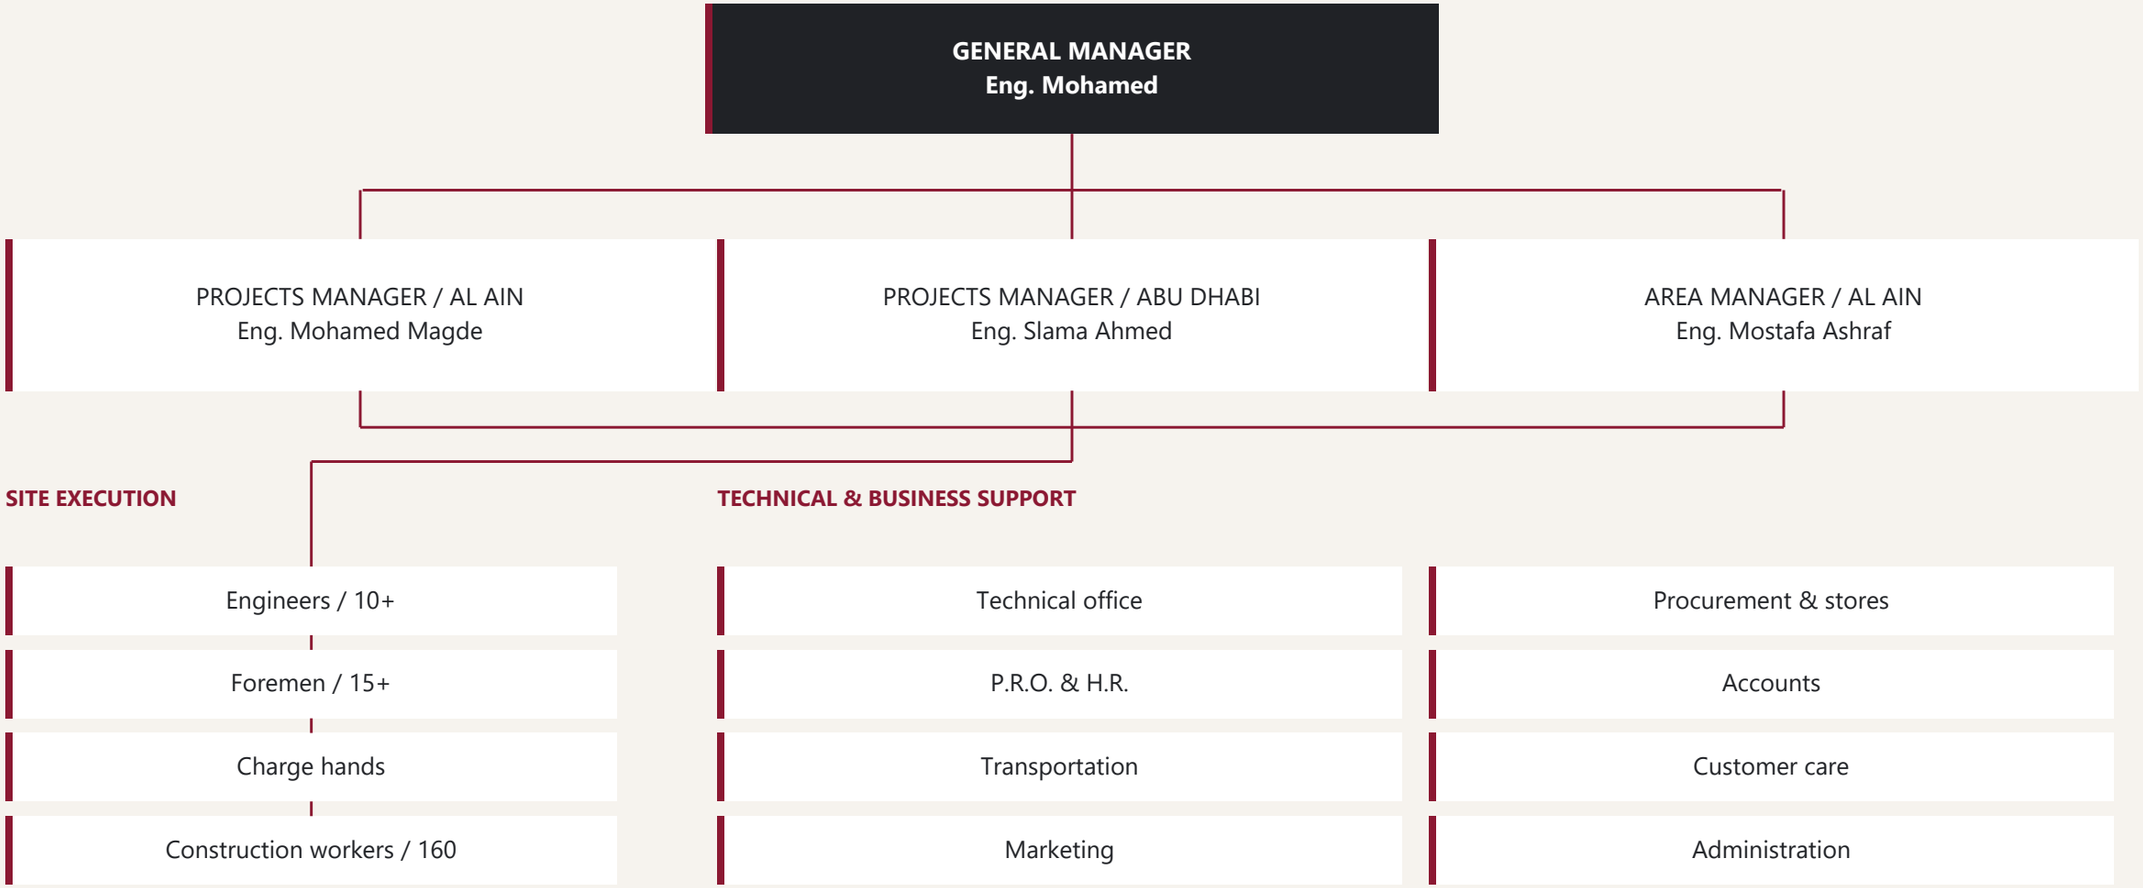

SITE DELIVERY & BUSINESS SUPPORT

10+ engineers / 15+ foremen / 160 construction workers / Technical office / Procurement / Transport / Accounts / HR

06 / ORGANISATION & REPORTING

Leadership connected to site delivery.

Project and area managers report directly to the General Manager. Site teams and support functions coordinate construction delivery.

07 / DELIVERY APPROACH

Turning project requirements into action.

A practical construction workflow, adapted to each project, its approved requirements and the contractor's agreed scope.

01	**Understand & coordinate**	Review approved project information with the owner and consultant, clarify site requirements and establish construction priorities.
02	**Plan & mobilise**	Organise site teams, work sequences, material needs and equipment to support the planned construction activities.
03	**Execute & supervise**	Manage daily site operations, coordinate trades and monitor workmanship against approved drawings and specifications.
04	**Review & inspect**	Coordinate inspections, technical queries and required submissions with the consultant and relevant authorities.
05	**Complete & hand over**	Follow up on finishing works, outstanding items and project close-out requirements within the agreed scope.

08 / WORKING RELATIONSHIPS

Clear responsibilities. Coordinated delivery.

Construction delivery depends on timely communication between the project parties. The interfaces below are applied in line with each appointment and the agreed scope.

M.H / MAIN CONTRACTOR	Organises site teams, materials and work sequences; raises technical queries and inspection requests; and executes approved construction requirements.
OWNER / CLIENT	Confirms project priorities and provides decisions on matters requiring owner input, using the agreed communication and approval channels.
APPOINTED CONSULTANT	Reviews technical submissions and construction queries, and undertakes the site inspection role defined by the consultant appointment.
MUNICIPALITY / AUTHORITIES	Undertakes the applicable regulatory and inspection role. Required submissions and site procedures are coordinated through the agreed project channels.

09 / OUR WORKING PRIORITIES

Quality is built into the work.

Workmanship & quality

Our site supervision focuses on material requirements, workmanship and construction details. Technical queries and inspection matters are followed up with the consultant to support the approved project requirements.

Site safety & organisation

We plan site activities with attention to safe working methods, access and equipment use. Day-to-day supervision helps coordinate workers and trades around the sequence and conditions of the work.

Communication & progress

We keep site teams aligned with current work priorities and follow up on progress, technical decisions and inspection requirements through the agreed project channels.

01 / COMMERCIAL

Al Yahar Mall

LOCATION

Al Yahar, Al Ain

CONSULTANT

VR Architecture Engineering Consultancy

EXECUTION & COORDINATION

Construction execution and site coordination, with attention to commercial building works, finishes and approved project requirements.

PROJECT OVERVIEW

A completed commercial development in Al Yahar, combining a broad retail frontage with associated building and external works. The project reflects the site coordination required to align construction activities, facade details and finishing requirements within a commercial setting.

02 / EDUCATION

Knowledge International School

LOCATION

Schools Street, Al Ain

CONSULTANT

Farid Design

EXECUTION PERIOD

6 months

EXECUTION & COORDINATION

Coordinating construction teams, building works and finishing activities with the consultant and owner.

PROJECT OVERVIEW

A completed school project on Schools Street, Al Ain, delivered over a six-month execution period. The development required organised site planning and coordination of building works and finishes to meet the approved educational building requirements.

03 / EDUCATION

Al Khalil International School

LOCATION

Al Ain

CONSULTANT

Dar Architectural Consultancy

EXECUTION & COORDINATION

School building execution, supervision and coordination of construction and finishing requirements.

PROJECT OVERVIEW

A completed school development in Al Ain, strengthening our education-sector portfolio. Construction delivery focused on implementing approved building details, coordinating site activities and maintaining consistent workmanship across the school facilities.

04 / INDUSTRIAL & COMMERCIAL

Al Noud Industrial & Commercial Complex

PROJECT OVERVIEW

A completed industrial and commercial development comprising warehouses, workshops, shops, an office building and an electrical room. The project brings together retail frontage, operational areas and supporting facilities, requiring coordination across the building works and external site areas.

LOCATION

Al Noud / Wadi Al Ain 1, Al Ain

CONSULTANT

The Violet Engineering Consultant Office

EXECUTION & COORDINATION

Execution planning and coordination of building works, industrial spaces, supporting facilities and external areas.

05 / INDUSTRIAL

Industrial & Retail Compound

LOCATION

Al Ain

CONSULTANT

Ayla Engineering Consultancy

PROJECT DESCRIPTION

A completed industrial and retail compound combining high-bay warehouse halls, administration facilities and trade units with spacious service and loading areas. Delivery brought together industrial building works, supporting facilities and coordinated external works.

EXECUTION & COORDINATION

Coordination of commercial spaces, warehouse works, service access and external areas.

06 / INDUSTRIAL

Warehouse & Workshop Compound

LOCATION

Al Ain

CONSULTANT

Ayla Engineering Consultancy

PROJECT DESCRIPTION

A completed industrial development combining warehouse halls, workshop areas and a compact administration block. A practical layout supports vehicle movement and the relationship between operational and support spaces.

EXECUTION & COORDINATION

Industrial building execution, loading access, administration spaces and coordinated external works.

07 / RESIDENTIAL

Al Mansouri Residential Compound

LOCATION

Al Ain

CONSULTANT

Al Hiwar Engineering Consultancy

CLIENT / OWNER

Mubarak Al Mansouri

EXECUTION & COORDINATION

Organising site activities and resources across a multi-unit development, with attention to construction consistency and finishing works.

PROJECT OVERVIEW

A multi-unit residential development for Mubarak Al Mansouri. The compound extends the company's residential experience beyond individual villas, bringing together repeated building elements, shared access and the coordination needs of a larger residential site.

08 / RESIDENTIAL

Residential Building - Al Asharej

LOCATION

Al Asharej, Al Ain

CONSULTANT

AIDEC

OWNER

Ali Al Nuaimi

PROJECT DESCRIPTION

Completed residential building with a central entrance, regular apartment openings and practical exterior finishes, delivered through coordinated building and finishing works.

EXECUTION & COORDINATION

Building works and finishes; coordination of access, external areas and inspection requirements.

09 / RESIDENTIAL

Mixed-Use Building - Al Asharej

LOCATION

Al Asharej, Al Ain

CONSULTANT

AIDEC

OWNER

Saeed Al Muqbali

PROJECT DESCRIPTION

Completed mixed-use building combining ground-floor retail units and residential accommodation above, with coordinated shopfronts, building works and finishes.

EXECUTION & COORDINATION

Structural works, shopfronts and residential finishes, coordinated to approved drawings and specifications.

10 / RESIDENTIAL

Apartment Building - Al Khabisi

LOCATION

Al Khabisi, Al Ain

CONSULTANT

Sara Engineering Consultancy

OWNER

Mohamed Al Mansouri

EXECUTION & COORDINATION

Site supervision, material coordination, work sequencing and inspections with the relevant project parties.

PROJECT DESCRIPTION

Completed apartment building with a central stairwell and a practical residential facade, with coordinated construction activities and finishing details.

11 / RESIDENTIAL

Residential Building - Al Khabisi

LOCATION

Al Khabisi, Al Ain

CONSULTANT

Al Hiwar Engineering Consultancy

OWNER

Sheikha Al Shamsi

PROJECT DESCRIPTION

Completed residential investment building with recessed balconies, painted facades and ground-level parking, incorporating coordinated building, finishing and external works.

EXECUTION & COORDINATION

Execution of building and finishing works, supported by owner, consultant and municipality coordination.

12 / VILLAS

Al Muwaiji Villa Compound

LOCATION

Al Muwaiji, Al Ain

CONSULTANT

Al Hosn Engineering Consultancy

CLIENT / OWNER

Mohamed Al Shamsi

EXECUTION & COORDINATION

Coordination of villa construction, site teams and finishing requirements across the compound.

PROJECT OVERVIEW

A completed villa compound in Al Muwaiji, combining individual residences within one coordinated development. Delivery required organised site activities, resource planning and consistent follow-up on building works and finishes across the compound.

13 / VILLAS

Two Villas, Al Maqam

LOCATION

Al Maqam, Al Ain

CONSULTANT

Funoon Al Emara

CLIENT / OWNER

Dhafer Sahmi Al Ahbabi

EXECUTION & COORDINATION

Execution of approved villa works, with coordinated supervision and follow-up on construction details.

PROJECT OVERVIEW

A completed two-villa development in Al Maqam. Site delivery brought together construction sequencing, material coordination and finishing activities to implement the approved residential requirements across both homes.

14 / VILLAS

Private Villa, Al Maqam

LOCATION

Al Maqam, Al Ain

CONSULTANT

Funoon Al Emara

CLIENT / OWNER

Mohamed Ali Hadi Al Ahbabi

EXECUTION & COORDINATION

Site execution, technical coordination and attention to the junctions and finishes that shape the completed residence.

PROJECT OVERVIEW

A completed private villa in Al Maqam, delivered through coordinated building and finishing works. The project required close follow-up on approved details and the interfaces between construction elements, facade works and residential finishes.

15 / VILLAS

Private Villa, Zakher

LOCATION

Zakher, Al Ain

CONSULTANT

Ebla Engineering Consultancy

CLIENT / OWNER

Saeed Sultan Al Shamsi

EXECUTION & COORDINATION

Coordinating construction teams and residential finishing works with the owner and appointed consultant.

PROJECT OVERVIEW

A completed private residence in Zakher, adding to our experience in detailed villa execution. Work coordination focused on the relationship between building activities, facade details and internal and external finishes.
